EXPERIENCE

Adobe	Jan 2021 - Feb 2022
Product Designer · Full-Time	San Francisco, USA

- Designed and improved user experiences across Adobe Creative Cloud products.
- Conducted user research, created wireframes, and collaborated with cross-functional teams to deliver intuitive design solutions.
- Improved usability and accessibility standards across multiple product workflows.

Spotify	Mar 2022 - Present
UI/UX Designer & Frontend Engineer · Full-Time	New York, USA

- Worked on designing and developing user-friendly interfaces for music streaming features and internal dashboard systems. Collaborated with designers, developers, and product managers to improve user engagement and application performance. Created reusable design components and optimized frontend responsiveness across devices.
- Conducted user research, created wireframes, and collaborated with cross-functional teams to deliver intuitive design solutions.
- Improved usability and accessibility standards across multiple product workflows.

SKILLS

Custom: React, Tailwind CSS, TypeScript, Adobe XD, UI/UX

Designing: Figma, UX Research, Wireframing

Frontend: HTML, JavaScript, CSS

PROJECTS

Personal Finance Dashboard React, TypeScript, Node.js, PostgreSQL	Feb 2025 - Jun 2025 
--	--

- Built a finance tracking dashboard to visualize expenses, savings, and investment performance in real time.
- Implemented secure authentication, budgeting tools, and interactive analytics charts for financial insights.
- Designed a responsive UI optimized for both desktop and mobile devices.

Fashion E-Commerce Store React, Redux, Express.js, MongoDB, Stripe API, Tailwind CSS	
---	---

- Created a responsive fashion e-commerce platform with secure authentication, shopping cart functionality, payment gateway integration, and personalized recommendations.
- Designed modern UI layouts and optimized product browsing experience for mobile and desktop users.

AI Travel Planner React, Node.js, MongoDB, Tailwind CSS, Google Maps API, JavaScript, Docker	
---	---

- Developed an AI-powered travel planning platform that helps users generate personalized travel itineraries based on budget, destination preferences, weather conditions, and travel duration.
- The application integrates AI recommendations, hotel suggestions, maps, and itinerary scheduling into a single user-friendly dashboard.

CERTIFICATES

- Meta Front-End Developer Professional Certificate,, Meta
- Speaker Badge, IBM
- Stanford Executive Program in Software Engineering, Stanford University
